Evaluation reports, delivered by our agency, are advisory reports prepared by professional evaluators based on comprehensive research with deep understanding of different educational systems around the world and in accordance with best practices adopted by our agency. Scholaro maintains an extensive list of print and electronic publications on comparative international education. A list of printed resources is available at www.scholaro.com/Library. Evaluation reports, prepared by our evaluators, do not substitute any professional Licensure and/or Certifications in the United States, and are subject to Terms and Conditions viewable at www.scholaro.com/Terms.

Scholaro, Inc. is an Endorsed Member of AICE, the Association of International Credential Evaluators, Inc.[®], and is approved by the Illinois State Board of Education to provide foreign credential evaluation services for Educator Certification. Scholaro's comparability recommendations follow the general guidelines of the U.S. National Council for the Evaluation of Foreign Educational Credentials.

Assumptions:

- Conversion of foreign academic hours is calculated on the assumption that the average number of credits for one year of full-time academic study in the United States varies from 18 to 24 semester hours for graduate programs, 30 to 36 semester hours for undergraduate programs, and 5 to 12 units for secondary programs.
- Grade Point Average is calculated on a 4.00 scale by dividing the total number of grade points by the total number of units, not considering grades of S on the Satisfactory/Unsatisfactory scale.
