**Assumptions:**

- Conversion of foreign academic hours is calculated on the assumption that the average number of credits for one year of full time academic study in the United States varies from 18 to 24 semester hours for graduate programs, 30 to 34 semester hours for undergraduate programs, and 5 to 12 units for secondary programs.
- Grade Point Average is calculated by dividing the total number of grade points by the total number of credits, not considering grades of S on the Satisfactory/Unsatisfactory scale.
